WAREHOUSE 2200

ATTACHMENT TO ARCHITECTURAL DATA FORM

The warehouse was built in 1936; it houses mostly fire suppression equipment, tools and general supplies. General Building Description: 1560 sq. ft., rectangular, no decoration, 2 story (with basement), wood framed, wood shingled medium gabled roof, exposed rafters at roofline, poured concrete foundation, horizontal 12 inch olepboard exterior, vertical board and batten on gabled ends (north & south). East (main) facade: Offset gabled dormer covering porch and supported by paired squared timbers. Concrete steps access porch from south, one multi-paned window toward north end and one multi-paned window toward south end, wooden sliding door (centered). West (rear) elevation: four multi-paned windows spaced evenly from north to south. One vent toward south end at ground level. South end north elevations: Vertical board and batten gable meeting horizontal siding; six multi-paned windows, three of which are centered, side by side, at top story in gabled area, and three of which are spaced evenly in middle story area, three vents at ground level at same spacing as those at middle story.
